

## SUPREME COURT UPHOLDS THE ILLINOIS WOMAN SUFFRAGE ACT DECIDES LEGISLATURE HAS POWER TO LET WOMEN VOTE FOR OFFICES CREATED BY STATUTE

Justices Carter, Cartwright, Dunn and Vickers Join in the Majority Opinion Declaring Law Constitutional—Base Opinion Upon Principle that Main Question Presented in Case at Bar Was Decided Some Years Ago When Right of Women to Vote for Certain School Offices Was Attacked—Justices Craig, Cooke and Farmer Dissent.

SPRINGFIELD, Ill., June 13.—The Illinois Woman Suffrage law, passed by the forty-eighth general assembly and giving women the right to vote for all except constitutional officers, was upheld by the supreme court in a decision announced late today. The court was nearly evenly divided, Justice Craig, Cooke and Farmer dissenting, while Justices Carter, Cartwright, Dunn and Vickers joined in the majority opinion upholding the constitutionality of the act. The majority opinion was written by Justice Frank K. Dunn and was based upon the principle that the main question presented in the case at bar was decided some years ago in the case of Plummer versus Yost 144, Ill., 68, in which the right of women to vote for certain school officers was attacked. This case was decided in favor of the women by the Illinois supreme court nearly thirty years ago.

**Legislature Can Confer Power**  
Justice Dunn's opinion holds that the legislature has the authority to confer the power upon women to vote for all officers created by statute; that the legislature has the authority to empower women to vote on all questions or propositions submitted to popular vote in any political subdivision, other than those questions which the constitution provides shall be submitted to a popular vote, such as constitutional amendments.

The act of 1913 apparently gives women the ballot on all propositions in addition to the right to vote for certain officers. This section is held by the majority opinion to be unconstitutional, the court holding that the questions provided for in the constitution to be submitted to popular vote to be subject to the same construction as the officers defined in the constitution and upon which only men may vote. The only school officers designated in the constitution and upon which women are not allowed to vote are the state and county superintendents.

The majority decision holds that women have the right to vote on local questions, inasmuch as such questions are not mentioned in the constitution. In other words the court holds that on all questions and offices provided for by the legislature, that the legislature has the power and authority to say who shall vote upon such questions.

Justice Farmer takes the position in a brief dissenting opinion that the Plummer vs. Yost case did apply to the question involved.

The opinion came down today very unexpectedly as the June term of court does not adjourn until next Tuesday or Wednesday.

No explanation was made by the court but it is understood the court was anxious to dispose of the case because of long delay and the importance of the decision.

The first contention made by an appellant was that the act is a violation of Section 13, Article 4 of the constitution because it amends the general election laws, but does not insert in the new act the section amended.

**Does Not Amend Any Act.**  
"This act," says the majority opinion, "does not purport to amend or revive any other act and it is complete in itself."

"The right to determine who shall vote rests with the legislature and not with the courts," declares the opinion of a majority of the supreme court, "and the courts have no right to interfere with the acts of the legislature unless such act has been clearly prohibited by the constitution. It is elementary that the right of suffrage is not a natural right but exists only by positive law; that the constitution is not a grant of authority so far as the legislature is concerned but is a limitation of legislative power, and that the legislative power of the general assembly is unlimited except by such restrictions as the constitution has imposed in express terms or by necessary implication. It is also true that where the constitution has prescribed qualifications of electors they cannot be changed by the legislature."\*\*\*\*\*

None of the officers named in this act is mentioned in the constitution but all have been created by statutory enactment.

The majority opinion further calls attention to the fact that the act of 1891 extended the right to vote for public officers to women in the same manner as the act under consideration.

The majority opinion concludes with an emphatic declaration of the court's duty to follow the prior decisions of the court which constitute "the highest evidence of what law is."

**Dissenting Jurist's Contentions**  
In his dissenting decision Justice Farmer contends that:

"When the constitutional convention acted and prescribed the qualifications of voters at any election the legislature was left no power to provide different qualifications for voters at elections for officers created by it. I can understand the constitution in no other sense than that it was the intention that the right to vote 'at any election' which is the equivalent of all elections, should be limited to those possessing the qualifications defined in Section 1 of Article 7. \*\*\*\*\* I concede my views are not in harmony with Plummer vs. Yost. That case, I think, supports the opinion of the court in this case and if my view prevailed it would necessarily overrule that decision. For that reason I have felt reluctant to express my dissent. \*\*\*\*\* It is my belief that it was not within the contemplation of the framers of our constitution the legislature should have power to prescribe the qualifications of voters, but that until the constitution is amended voters at all elections, whether for constitutional or statutory officers, must possess the qualifications prescribed by Section 1 of Article 7."

**Justice Cooke's Opinion.**  
In his dissenting opinion Justice Cooke, emphatically declares his belief that the suffrage law is in conflict with Section 1, Article 7, of the constitution. He contends the question for the court's consideration was one of the construction and that the constitution whether it is wise or unwise to restrict the right of suffrage should not concern the court in rendering this decision.

Referring again to the constitution Justice Cooke says:

"It seems to me to be inconceivable that the members of the constitutional convention in submitting this instrument and the people in adopting it intended that the right of suffrage should be restricted to male citizens of the age of twenty-one years and upwards for all offices created by it whereas the qualifications of voters for any other office which had theretofore been or might thereafter be created by statute should be determined by the legislature. It is highly improbable that no one except male citizens above the age of twenty-one should have the right to vote for constable, justice of the peace, or police magistrate and then leave it to the legislature to say that not only females but even aliens, non-residents and infants might vote for the important offices of presidential electors or members of the state board of equalization. \*\*\*\*\*

"I think it clear from a consideration of the constitution itself, that the right of suffrage at all political elections was meant to be extended only to male citizens above the age of twenty-one years, and that the words 'any election' refer not only to such elections as are provided for by the constitution but to such as are provided for by the legislature."

"In a number of the states of the union suffrage has been extended to women upon equal terms with men, but in each instance this right has been conferred by express constitutional provision. In some of the states the right was conferred by the original constitutions adopted at the time such states were admitted to the union. In six other states having constitutions similar to ours it was deemed necessary to amend the constitution in order to confer this right of suffrage upon women.\*\*\*\*\*

"It is significant that in no instance did the legislature of any of those states assume to have the power to extend the right of suffrage in the absence of express constitutional authority."

Taking up the Plummer vs. Yost case cited in the majority opinion, Justice Cooke says:

"The most casual reading of the Yost case should be convincing that the court did not consider the question here involved, but that the theory of the Michigan case controlled the conclusion there reached. It is highly improbable that court there meant to hold as the majority finds it did, without any discussion of the many important points involved. An opinion making a holding of such importance and fraught with such consequences should certainly state the basis of its conclusions with such clearness that it would have no doubt in the mind of the reader. This the court evidently failed to do, and we should now place that construction upon the Yost case which is in harmony with the plain language of the constitution."

In my opinion the legislature is without power to prescribe any different qualifications for electors for political offices than those prescribed

## MAY ASK RECEIVER FOR LORIMER BANK

FUTURE DEPENDS ON DISCLOSURES IN  
REPORT OF EXAMINER HARKIN

"There is Not Much Hope," is Harkin's Brief Comment—Two Other Small Banks Close Their Doors—Judge Orders Probe of Suspension of LaSalle Street Institution.

CHICAGO, June 13.—The future of the LaSalle street Trust & Savings Bank, William Lorimer's institution which was closed yesterday by the state rests upon disclosures which will be made by the report of Daniel V. Harkin, state bank examiner, to State Auditor James J. Brady. This will be turned over to Mr. Brady, who will come to Chicago on Monday morning.

"There is not much hope," was Mr. Harkin's brief comment after he ended the first general survey of conditions.

The next step he indicated, would be to the application for a receivership to be made by Auditor Brady.

While experts were examining the records of the LaSalle street bank and three other small depositories which were closed because of their heavy accounts in the downtown bank, two other small banks closed their doors. One of them, the State Bank of Calumet, probably will be re-opened this week, Mr. Harkin said.

A receiver was appointed for the Southwest Savings bank, its proprietors being compelled to cease business because all his money was in the Lorimer Bank.

James H. Wilkerson, United States district attorney, was directed by Federal Judge Carpenter to investigate the conditions surrounding the suspension of the LaSalle street bank with a purpose of conserving a deposit of \$136,700 of trust funds in bankruptcy proceedings against the Kellogg-Mackay company, secured only by a \$50,000 bond.

Mr. Harkin said he had in preparation a list of former large depositors who withdrew their accounts since June 1st. He said that about that date the deposits exceeded \$5,000,000 and they had shrunk to about \$2,700,000 on the day the bank was closed. To meet these deposits there was less than \$50,000 in the vaults.

Alderman Merriam asserted he was going to inquire what "influence" caused the Lorimer bank to carry a maximum city deposit for two years while no municipal funds were deposited in other banks.

**Munday Resigns Presidency.**  
Bethalto, Ill., June 13.—C. B. Munday, principal stockholder in the LaSalle street Trust and Savings Bank in Chicago, today resigned the presidency of the Farmers' Bank here when notified by the directors a run had started. John Neunaber was elected to succeed him.

**SUPREME COURT ISSUES WRIT TO CHICAGO SCHOOL BOARD MEMBERS**

SPRINGFIELD, Ill., June 13.—A writ of mandamus was today granted by the supreme court to Henry Hutman, Charles O. Sethness, John C. Harding and James B. Dibelka to compel their recognition as members of the Chicago school board by President Peter Reinberg and Secretary Lewis E. Larson. The petitioners were removed from the board by Mayor Harrison when they refused to resign. They claim the action of the mayor was illegal, inasmuch as resignations had been signed and furnished them before they were properly qualified to assume office, and the court now holds that a person cannot resign an office before he becomes an officer. There was no dissent to Justice Farmer's opinion.

**HAS LARGE LAND INTERESTS.**  
Ottawa, Ill., June 13.—Real estate valued at \$64,000 is held by the defunct Tonica Exchange bank, according to the report today of appraisers. The holdings are in Illinois, California, Indiana, Texas and South Dakota.

**SATURDAY IN CONGRESS.**

Met at 11 a. m.  
Senator Newlands reported the senate federal trade commission bill as a substitute for the house measure.

Old pipe line managers opposed Senator Gore's bill to make them common carriers.

Adjourned at 5:40 p. m., to noon Monday.

House.

Met at noon.

Debate was resumed on the sundry civil appropriation bill.

Speaker Clark signed the Panama tolls exemption repeal bill and it went to the senate for signature of the president pro tem before going to the white house.

Disagreed to conference report on District of Columbia appropriation bill.

Adjourned at 5:35 p. m., until noon Monday.

## BUTTE MINERS' RIOT HALTS CELEBRATION

City Under Armed Rule,  
with Saloons Closed and  
Stores Cleared of Arms

MINERS UNION DIVIDED

Seceders Knock Union Head and  
Parade Marshal from Horses  
—Throw Acting Mayor Out

SHERIFF'S FORCE POWERLESS

BUTTE, Mont., June 13.—Butte tonight is virtually under armed rule with its saloons, which have not been closed in years, except on election days, locked and with every hardware store cleared of arms as a result of riots during the day—miners' union day—the thirty-fourth anniversary of the establishment of the union in this camp. The miners' union with upwards of 9,000 members is divided against itself.

More than two thousand men have refused to recognize the union further and under the leadership of agitators of the Industrial Workers of the World, the seceders this morning attacked the miners' union parade composed of more than half the labor bodies of the city.

President Bert Riley of the union and Parade Marshal Michael Conday were knocked from their horses by a volley of stones from the rioters. Other officers of the union were chased from the line of march and took refuge in the sheriff's office at the court house.

**Abandon Speaking Exercises.**  
The parade was broken up and the speaking exercises in the theatre abandoned because of the stormy street scenes. The rioters moved on the union hall in the center of the city. Every piece of furniture in the building was demolished and thrown into the streets. The ballot boxes containing the 4,500 votes cast at the recent election of union officers which had not yet been counted were destroyed and their contents emptied into the street.

Alderman Frank Curran, acting mayor of the city, a Socialist, went to the union hall to appeal to the rioters to disperse and was thrown from a second story window to the pavement. He was taken to the hospital severely injured. Ten thousand persons witnessed the demonstration. Police and the sheriff's deputies were powerless.

Tonight the disgruntled faction of the miners held a meeting in the auditorium to take steps toward the formation of a new miners' union under the Industrial Workers of the World.

**Trouble Outgrowth of Assesments.**  
The trouble began over the dissatisfaction of the miners with heavy special assessments levied against them by the officers of the Western Federation of Miners and the local officials as benefits for the Michigan copper mine strikers. Some of the miners were said to be paying as high as eight to ten dollars a month in assessments. More than \$200,000 had been sent from Butte to Michigan. Although the strike there has been called off the assessments continued.

Men failing to pay the assessments, were disfranchised at the recent union election. The seceders from the union declare that by tomorrow morning when the mines re-open the union will not be able to furnish more than a fraction of the number of men necessary to operate the mines and that the companies will have to look to the new organization.

**THIRTY-FIVE HURT IN WRECK.**

Chafee, Mo., June 13.—Thirty-five persons were injured this afternoon when St. Louis and San Francisco train No. 802, Memphis to St. Louis, left the track near here.

The wreck was caused by a loose wheel on the forward truck of one of the passenger coaches. Two coaches left the track.

The wreck occurred as the train approached a trestle at Moccasin Springs, twelve miles from Cape Girardeau.

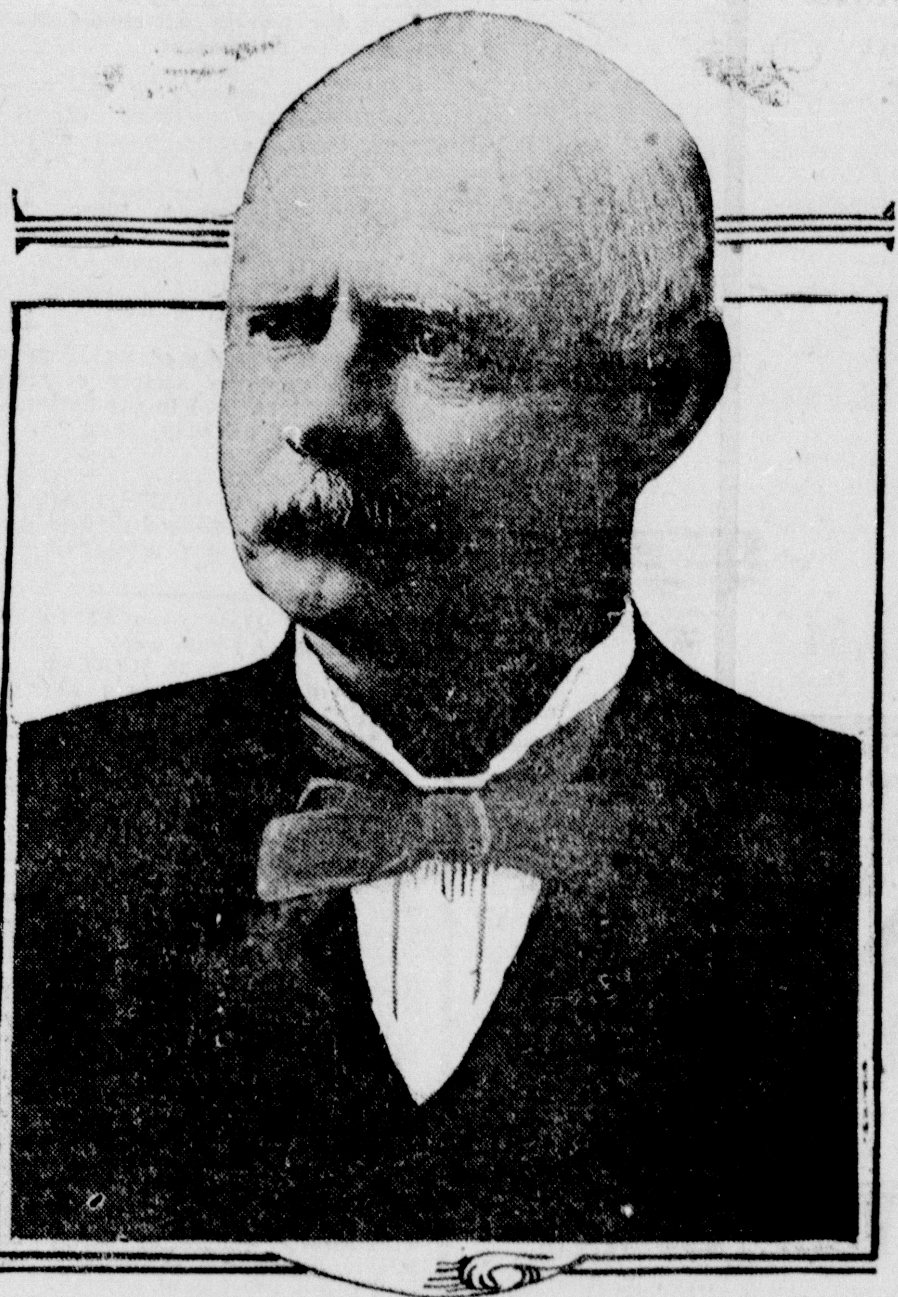

**THE WEATHER**

Washington, June 13.—Showers and thunderstorms Sunday, except fair in extreme south portion; Monday probably fair, somewhat warmer in north and central portions; moderate northeast to east winds.

**Temperatures.**  
The current, maximum and minimum temperatures recorded Saturday were:

## REACH THE CRUX OF MEXICAN PROBLEM SUFFRAGE ACTS AS BOMB

MEDIATORS DISCUSS SELECTION OF  
MAN FOR PROVISIONAL PRESIDENT

For More Than an Hour Individuals  
Are Considered, but There Is No  
Ssemblance of Agreement on Any  
—Will Hold Conference Today.

NIAGARA FALLS, Ont., June 13.—The crux of the Mexican problem—the selection of a man for provisional president acceptable to all factions in Mexico and foreign governments generally—was reached today in a conference between the mediators and the American and Mexican delegates. For more than an hour names of various individuals were discussed but on none was there a semblance of agreement. Tomorrow there will be another conference on the same subject. Details of the peace plan are practically set aside now for the greater task of finding the man of the hour—who can reconcile the warring factions and maintain peace while a constitutional election is held and normal order is resumed.

Incidentally, General Carranza's note, transmitted by Rafael Zubaran, his representative in Washington, arrived today, advising the mediators that constitutional delegates were on their way to the mediation conferences with full instructions. The mediators made no comment on the note. It contains no reference to an armistice, on which the mediators have been insisting and there was nothing to show that the mediators had in any way altered their determination reached yesterday not to admit officially the officials of General Carranza unless an armistice was declared. Some other way of dealing with them, perhaps through the American delegates, may be found when they arrive.

The Mexican delegates received during the day the formal answer of the United States to their inquiry concerning the embargo on arms by sea. The American government declared its regret that the Antilla, by a misunderstanding, should have obtained clearance papers which permitted it to land arms at Tampico for the constitutionalists, but called attention to the strict orders which now were in effect prohibiting all exports of arms to Mexico.

**DARLING CHARGES SMOOT WITH  
USING HIS MEMORIAL DAY SPEECH**

CHICAGO, June 13.—Jasper T. Darling, secretary of the National Bureau for the advancement of patriotism and a prominent member of the grand army of the republic, complained today that a Memorial Day speech he made at the Tomb of Abraham Lincoln in Springfield in 1902, was repeated last Decoration Day at Arlington National cemetery by Reed Smoot senator from Utah.

The complaint of Darling was contained in an open letter to Senator Smoot which was sent by him to Washington. The letter, couched in sarcastic terms, commented on the similarity of the verbiage and particularly bewailed that a poem the fruit of "inspiration" had been included in the Arlington speech without proper credit being given the author, Jasper T. Darling.

## NEWS OF VICTORY FOR SUFFRAGE ACTS AS BOMB

BULLETIN HAS HARD TIME REACHING  
THE DELEGATES

Outburst Which Follows Announcement Is Far Greater Than That Which Greeted Passage of Suffrage Resolution by Federation Earlier in the Day.

CHICAGO, June 13.—Delegates to the convention of the General Federation of Women's clubs had scarcely regained their tranquility after approving woman's suffrage in principle today and settled back into traditional lines when the calm was again shattered. It occurred when the news came from Springfield that the supreme court had upheld the constitutionality of the suffrage law in Illinois. The bulletin had a hard time reaching the delegates and like a bomb with a faulty fuse it smoldered on the chairman's table for fifteen minutes before the explosion. This was due to the rigid regulations designed to maintain quiet and the ultra etiquette attending the speakers.

The corridors outside were sizzling with news and the blessed "shushes" of the door women had little effect. Neither did the cards marked "Silence" in big black letters, which bobbed up like tabs in a cash register at every outburst but inside the auditorium the delegates sat in contented ignorance.

Suddenly Mrs. Gray Peck of Illinois burst to the fore. There was a flutter applause, but she held up her hand. "Just a moment, please," she commanded. "It is fitting that I should preface my address with something dramatic, for my subject is the national expression of American life in our drama."

Then she read the news—just a line—but the applause which followed was far greater than that which greeted the passage of the suffrage resolution earlier in the day, and most of the women stood up to emphasize their delight. Opinions differed as to the effect of the endorsement of equal suffrage. Mrs. Lucretia L. Blankenburg of Philadelphia, vice president of the federation, characterized it as a "step forward."

Grace Wilbur Trout, president of the Equal Suffrage association of Illinois, asserted that although the endorsement was only in "principle," it was bound to have a great educational effect and to prove a strong moral for the cause among the million women directly or indirectly connected with the federation.

**BELIEVES THAT WAR BETWEEN  
GREECE AND TURKEY INEVITABLE**

Athens, June 13.—War between Greece and Turkey is inevitable, according to the newspaper Hestia, which is considered as voicing the majority of Greek public opinion. The government has not as yet received any intimation of the nature of the sublime porte's reply to the Greek note demanding that Turkey cease its persecution of the Greeks in Turkey and make reparation to them for the losses incurred.

## ADLAI E. STEVENSON DIES AT EARLY HOUR

Vice-President Under  
Cleveland Succumbs to  
Several Months Illness

HAD HONORABLE CAREER

Served Two Terms in Congress,  
and Was Democratic Nominee  
for Gov. of Illinois in 1908

FUNERAL TO BE TUESDAY

CHICAGO, Ill., June 14.—Adlai E. Stevenson, vice-president of the United States during the second term of President Grover Cleveland died at a local hospital at one o'clock this morning after an illness of several months.

Mr. Stevenson was seventy-eight years old. His last illness followed a five month's vigil at the bedside of his wife who died about six months ago. Mr. Stevenson suffered a nervous breakdown and a month ago he came to Chicago from his home at Bloomington, Ill., for treatment. His condition gradually became worse and he entered a hospital. The burden of his years and the oppressive heat of the past week contributed to the fatal termination of his illness.

He became unconscious Saturday morning and was revived long enough to recognize relatives, then lapsed. He was unconscious at the end.

The three children who survive him and who were at his bedside, are: Lewis G. Stevenson, president of the Illinois State Board of Pardons; Mrs. Martha D. Hardin of Chicago and Miss Letitia Stevenson of Bloomington.

Lewis Stevenson announced that funeral would be held Tuesday afternoon at Bloomington. No details have been arranged.

Adlai Ewing Stevenson, once vice president of the United States, had a long and honorable public career. He was vice president from 1893 to 1897 under President Grover Cleveland. In 1900 he again was nominated by the Democratic party for vice president and ran with William L. Bryan, the party's candidate for president but was defeated. He served as member of the 44th and 45th congresses. From 1885 to 1889 he served as first assistant postmaster general under President Cleveland.

His last appearance as a candidate for public office was in 1908 when he was nominated for Governor of Illinois by the Democratic party and was defeated by Charles S. Deneen, Republican.

He was born in Christian county, Kentucky, October 23, 1835 of Scotch-Irish parentage. In 1853 his parents moved to Bloomington, Ill. He attended the public schools and the Illinois University.

In 1861 he graduated from Cadiz college, Kentucky. There he was a classmate of Senator Joe Blackburn, and other youths who later became prominent in public life. He signaled the close of his college career by marrying a daughter of Dr. Lewis W. Green, president of the college.

After leaving college Stevenson returned to Bloomington, Ill., and read law. He was admitted to the bar in 1858 and began legal practice at Matamoras, Ill., where he remained until 1868. During these ten years he held the office of master in chancery four years and district attorney for a similar period.

In 1868 he returned to Bloomington and formed a law partnership with his cousin, James S. Ewing and for many years the firm was one of the best known in Illinois legal circles.

Stevenson's political career dated from 1864 when he was a presidential elector on the Democratic ticket. He made a canvass of Illinois in behalf of the McClellan ticket and won a reputation as a political orator.

In 1874 Stevenson was nominated for congress by the greenback and anti-monopolist parties in the 13th Illinois district against General John McNeill, Republican. The Democrats considered the case hopeless and did not hold even a convention. The ensuing campaign was exciting and Stevenson was elected by a majority over General McNeill of 1332 votes.

In 1876 he again was elected to congress for the same district on the greenback ticket although he was supported by the Democrats, who declined to put up a candidate.

In 1884 Stevenson led the Illinois delegation to the Democratic national convention which nominated Grover Cleveland for president. In 1897 he was appointed a member of a commission which visited Europe in an effort to securing international bimetallism.

## GIVE HEROIC STATUE TO PEOPLE OF CHICAGO

### UNVEIL LIKENESS OF JOHANN WOLFGANG VON GOETHE IN LINCOLN PARK

Count Von Bernstorff, Imperial German Ambassador to U. S., Governor Dunne and Mayor Harrison Are Among the Speakers.

Chicago, June 13.—Fifty thousand persons attended the ceremonies today at which the heroic statue of Johann Wolfgang Von Goethe in Lincoln Park was given to the people of Chicago.

Count Von Bernstorff, imperial German Ambassador to the United States gave the principal address. Among the other speakers were Governor Dunne and Mayor Harrison. "Nearly a century after his death and in a country on the opposite side of the world from where he wrote and labored, we meet today to unveil a statue to the greatest dramatist and author who ever wrote in the vigorous, virile language of the German nation, Johann Wolfgang Von Goethe.

"How comes it, it may be asked from the scenes of his labors, that a people speaking a different language in a nation of different character, should be paying so high a tribute to the genius of this man.

"It is because, first, Goethe is so great a character that admiration for his genius is world wide, and not limited to the nation of his birth and tongue; and secondly: It is because there is in this great state a Germanic strain which has given to this state a population of probably 1,100,000 souls, or nearly twenty per cent of its total strength, and it is because these vigorous, virile Germans who have been transplanted upon the fertile soil of Illinois have brought with them not only the grand old German tongue, but the German love of liberty; love of justice, and love of German literature and its highest exponents.

"This land of ours today is the greatest republic upon earth, and at the same time the most cosmopolitan in character. Originally discovered by an Italian it was settled by the Anglo-Saxons, the French and the Spanish. In the struggle between the original settlers, the Anglo-Saxons forced the French to the north and the Spanish to the south, thus reserving to the Anglo-Saxon settlers the richest and most fertile lands on the face of the earth. The Anglo-Saxons did not long continue to hold exclusive sway.

"When it became known in Europe that there lay between the St. Lawrence and the Gulf of Mexico a stretch of country of marvelous richness of soil and mineral wealth, the daring and enterprising men from other countries of Europe began coming to our shores.

"Among the first of these were the Germans, the Celts and the Scandinavians, and these verile people, pushing their way inward from the Atlantic began to develop in the heart of this great, fertile country the boundless resources placed there by nature. During the first half of the nineteenth century most of the emigration to America was from Germany, Ireland and Scandinavia, their numbers being in the order of their present date in the twentieth century these three great sources of emigration were augmented by the emigrants from southern and western Europe, so that today it is probably true that there is not a country in Europe that has not more or less representation among the American people.

"As the result it has been truthfully said that 'Europe and not England is the mother country of America.' Among all these different races that have contributed to build up and develop this great cosmopolitan republic there is none perhaps which has left a more powerful impress upon the history of this country and contributed more effectively to its tremendous development than the men and women who have come from the land whose language and literature Goethe has immortalized.

"Possessing the same physical strength, capacity for endurance and intellectual power that made the German race irresistible even as against the trained legions of Rome, it has displayed in this country the same vigor; the same courage; the same intelligence and the same capacity for independence and self control.

"The first great German settlement was at Germantown, Pennsylvania, about the end of the seventeenth century, which city was incorporated by them in 1691, but dissolved soon afterwards as the history naïvely relates 'because no one would hold office.' I believe this is the only incident of its character in American history.

"Early German Emigrants. "Very early in the history of the state of Illinois the German emigrant made himself felt in the shaping of public events. Captain Leonard Helm and Captain Joseph Bowman, German Virginians, were two of the ablest and most courageous of the captives who invaded this state in the interest of the American revolution during the war of the revolution under the leadership of George Rogers Clark.

"Baron Steuben abandoned a comfortable home and position in Prussia to enlist as a volunteer in the American army, and rendered invaluable services under Washington, particularly at the siege of Yorktown. Baron de Kalb was also of the same race and rendered splendid service to the cause of the revolutionists. As early as 1820 German emigrants located in St. Clair county, in Belleville, until recently the principal city of that county. Belleville has always been regarded as a great German center, and for many

years German Americans filled all the public offices of that county.

"Edward Rutz, three times state treasurer, was a German who hailed from Belleville. Gustavus Koerner, also from Belleville, was elected lieutenant governor of the state of Illinois, and afterwards appointed minister to Spain.

"Among the other eminent men of German extraction whose names are indelibly inscribed upon the history of this state are those of Samuel Etter, a former superintendent of public instruction; Frederick Becker, colonel 24th Illinois volunteers; Francis A. Hoffman, a former lieutenant governor of this state; Anton C. Hesing, the brilliant journalist; Washington Hesing, his son, a former postmaster Chicago; W. C. Kueffner, colonel 149th Illinois volunteers, and Herman Raster, editor and journalist, all of whom have been gallantly to their long reward. The loyalty of the German-American emigrant has never been questioned. In peace and in war he has been loyal to the laws and institutions of his adopted country. Over 18,000 German, or descendants of Germans, volunteered and did valiant service in the cause of the union from the state of Illinois.

"The 24th Illinois, commanded by Hecker and the 13d Illinois, commanded by Colonel Endemann, were composed almost solidly of German-Americans, and the sons of German-Americans. Franz Sigel of the neighboring state of Missouri, was one of the most brilliant generals in the union army, and Carl Schurz was probably one of the leading statesmen of his day.

"The Career of Altgeld. "Subsequent to those times there arose to public prominence in the state of Illinois one of the most gifted and courageous men whose names appear in the history of Illinois; a scholar; a philosopher; a soldier, a jurist, afterwards one of the greatest governors this state has ever had, John P. Altgeld. This great leader of public thought; this great humanitarian; this man of courage and conviction has placed his name high among the statesmen of the United States, and has earned for himself the honor recently conferred upon him by the legislature of this great state when it authorized the erection to his memory of a statue to be built at the state's expense.

"Meet and proper then it is that German-American people of this state should at their own expense, in one of the most beautiful of our parks, located where it is surrounded by the homes of American citizens of German descent, erect a monument to commemorate the genius of the greatest of German dramatists and authors, the immortal creator of 'Faust'. Meet and proper is it that the statue idealizing and typifying the genius of Goethe, the Shakespeare of Germany, should be placed in this beautiful park. The German in his native land, and the German who has adopted as his country this free land of ours, has invariably been a student, a man of culture and lover of literature. His is a race of students, philosophers, scientists, literati and artists.

"Not only has the German race placed the fatherland among the greatest nations of the earth by his war-like prowess, and his splendid courage, but by his love of literature, his love of art and science, and his studious, artistic and philosophical temperament, he has placed that same race among the vanguard of the nations in art, in science, in sculpture, in music, and in literature.

"I congratulate the German people of Chicago upon the fact that they are here today to dedicate this magnificent monument to the memory of the immortal Goethe, and that they will soon be permitted in this same park to assemble upon a like occasion to unveil the monument erected by a grateful state to the greatest of German-American-Illinoisans, John P. Altgeld."

You'll find that straw hat to please you at Garland & Co.

## A GREAT SHOW AT SCOTT'S AIRDOME ALL THIS WEEK

Ora's Musical Comedy Company Will Appear With Fourteen in Cast—Young Togo and a Feature Picture, Too.

Ora's Musical Comedy company open at Scott's Airdome tomorrow night. Girls! Girls! The beauty chorus of Burletta!

A riot of color, music and rapid fire fun as a background for the celebrated beauty chorus of Ora's Musical Comedy company, featuring that chic, petite prima donna, Anna Coyne, daughter of the famous comedian, Joe Coyne, will be seen at Scott's Airdome this week beginning Monday night.

This whirlwind dancing and extraordinarily capable singing organization of fourteen people will put on the new Winter Garden feature, the burletta, the eastern rage, which has eclipsed the tabloid. In dancing the company features the Atlantic City craze, "the Chinese Maxixe," as well as the latest variation of the hesitation and the Castle walk.

The company features Young Togo, Japanese champion lightweight Jiu-Jitsu wrestler of the world. His terrific battles are known to all fans.

This company will present two shows nightly at 10 cents. The burletta goes with a snap and a bang and the singing and dancing of the beauty chorus is the talk of summer amusement wherever the show has played. Jacksonville's opportunity for seeing a de luxe musical show.

"The Dance of Death."

The feature picture is a two-reel Kalem, featuring Alice Joyce, Tom Moore and Mademoiselle Verna Mercereau in a powerful two-part drama.

One of the world's most famous dancers, Mademoiselle Verna Mercereau, performs the weird Hawaiian "Dance of Death" in the great two-part Kalem masterpiece of the same name, which is to be shown at the Airdome Monday.

Alice Joyce, the most popular photoplay star, and Tom Moore also appear in this beautiful production. "The Dance of Death" tells the story of Sakhi, an Hawaiian dancing girl, who falls in love with Richard Hartley, a young American.

Later, upon his return to the United States, Richard forgets the girl he had married according to the rites of her people. Instead, he becomes engaged to Mabel. Sakhi receives an offer to appear on the American stage. She accepts, believing it will result in her finding her husband.

She takes her new born babe with her. On the night before their marriage Richard and Mabel go to the theater. The boy is thunderstruck when he sees Sakhi on the stage.

The girl's dancing excites tumultuous applause. In the midst of the "dance of death" she sees her faithless lover. A glance tells her he has cast her off. Resuming the dance, she veritably makes it a dance of death, because at its climax she buries a knife in her heart. How Richard comes to realize the enormity of his offense will bring tears to every eye.

Admission: Adults 15c, children 10c. Two shows nightly, rain or clear.

Boys blouse and wash suits are shown at Garland & Co. in large varieties.

### WILL ATTEMPT TO CROSS ATLANTIC BY AREOPLANE BEFORE END OF JULY

NEW YORK, June 13.—The attempt to cross the Atlantic ocean by aeroplane, planned by the Rodman Wanamaker expedition, will be made before July of this year is passed, according to information here tonight. During next week it is expected that the airship will be assembled at Hammondsport, N. Y., this to be followed by trial flights over Lake Keuka.

The plans indicated call for the shipment of the machine to St. Johns, N. F., late in June or early in July, weather conditions then to dictate the exact date of departure. Lieut. John C. Porte, R. N., pilot of the expedition expects, however, to set forth on the trip at the earliest possible date in July. It is understood. Recent tests proved the engine of the machine satisfactory, it is stated, and plans for the flight have since rapidly matured.

### SHIPS NEW YORK AND PRETORIA PROCEED AFTER CRASH AT SEA

On Board SS. New York, by wireless via Siasconset, Mass., June 13.—With neither steamer seriously damaged as a result of a crash at sea east of the Nantucket lightship early today, the American liner New York, bound for New York, and the Pretoria of the Hamburg-American line, en route to Hamburg, were proceeding tonight to their destinations.

Precautions taken to slow both vessels in a dense fog prevailing had averted a possible disaster. The shelter deck railing of the New York just beneath the bridge was smashed. Many of the Pretoria's portholes were crushed in. There was no panic on the New York.

### THE FRANCHISE MATTERS.

The talked of conference between the city council, Judge Thompson of the utility commission and Mr. Chubbuck, general manager of the Illinois Traction company, did not occur yesterday. It is understood, however, that the franchise recently adopted by the city council have not been turned down by the company and that while the ten days for acceptance provided in the ordinance have passed, that matters are still in abeyance.

This situation has arisen from the fact that the council desires to give all the time needed by the company to consider the franchise provisions and Mr. Chubbuck has been away from his office most of the time since they were passed. It is said that the principal objection the company has to the franchise is 8-cent electricity and that it fears an acceptance of the electric franchise in the present form will prohibit them from going before the state utility commission and asking for authority to increase rates.

Although city officials would not discuss the matter yesterday, it is understood that a conference between them and Mr. Chubbuck will be had next Wednesday in Springfield and it is presumed that this meeting is to be held there in order to secure at the same time some opinion from the utility commission as to the question at issue.

The indications at least point to an early agreement on franchise matters, and this is certainly greatly to be desired.

### SUFFRAGE LAW UPHOLD.

The Illinois supreme court has declared the Illinois equal suffrage law constitutional. That a decision has finally been rendered will give universal satisfaction, although there are varied feelings as to the finding itself. While the question was in doubt there were unsettled conditions in some cities where much was at stake on the result, and now normal conditions will be restored.

While the liquor interests have from time to time professed to believe that they were not afraid of women's votes, the facts nevertheless show that the granting of suffrage rights to women was a great step toward increasing dry territory. There are many towns and cities which will certainly remain dry so long as women can vote upon the question. Had the court declared the law invalid many cities which were voted dry a few months ago would go back in the wet column and there would have been a general upheaval, too, in various cities where women have voted on other questions.

Woman suffrage, the full right to vote on all matters, is just a question of time, and had the present law been "knocked out," there is little doubt but that eventually the legislature would have passed another, probably a broader measure.

### GRIFFITH AWAKENS BOY AFTER HE IS GIVEN UP BY PHYSICIAN

GARY, Ind., June 13.—The hypnotic eye of "The Great Griffith," exhibition mesmerist was put to a life or death test early today in the Gary police station.

While the heart beats of one of his paid subjects, a Chicago boy, grew momentarily fainter, Griffith worked frantically to restore him to consciousness. In the street outside the station house a thousand angry men from the steel mills awaited the result.

Even after the boy, given up by physicians, had been awakened the mob remained and Griffith returned to his hotel in the center of a police cordon.

Griffith was arrested yesterday after he had kept his subject peddling a bicycle in a store window for several hours.

### EAST ST. LOUIS HAS BIG FIRE.

East St. Louis, Ill., June 13.—The Weiriffe Planing Mill here was destroyed by fire tonight with a loss of \$60,000. When a fire engine started to the scene one of the horses balked and none of the apparatus could be gotten out of the engine house for eight minutes. This delay is believed to have resulted in the destruction of the building.

### FOUR TRAINMEN KILLED.

Logan, O., June 13.—Four trainmen were killed, another probably fatally injured and more than a score of passengers hurt when two passenger trains on the Hocking Valley railroad collided near here tonight. Failure of a station agent to place the block for the north-bound train was assigned by officials as the cause of the collision.

## Reo Motor Car Company

LANSING, MICH., June 9th, 1914

J. W. SKINNER, Reo Sales Agent,  
Jacksonville, Ill.

DEAR SIR:

After consulting with many REO dealers, we wish to announce that our policy is to let well enough alone. There will be no change in the REO model, or the REO price this season.

In the past five years, during which our engineers have confined themselves to this model, the car has been brought to perfection. We have made changes as needed. Again and again important improvements have been added in mid-season.

### Some of the Reasons Are These

No changes can be made in the way of improvements now. We reduced the price last year by \$220. In this way we anticipated all the economies of larger sale and output.

The demand for REO the Fifth—which continue to break all records—show that buyers are satisfied. In this car today they are getting the best value that will ever be offered we think.

We are not going to stand still. We shall keep on, as always, bettering this car as fast as we find a way.

We want you to join with us in keeping up the present enthusiasm for REO the Fifth. Tell every prospect that the car won't be changed. It is as good as we can make it.

Perhaps our rivals will offer some changes as usual. They may in this way try to stir up new interest. But they cannot offer more real value than we do. They can make no changes which will make their cars more formidable competitors. Reo the Fifth will hold the same advantage as it has today—the same appeal as a super-car. And every month's production which goes out to users places us in stronger position.

We shall continue our advertising in full force during the summer and fall. A little later we will announce a larger production—three new factory buildings. These we figure, will add forty per cent to our output. In an advertising way we shall stand right with you in keeping cars moving at the present rate against any competition, new model or old.

Base all your plans on these facts. Keep pushing the same as ever. Let it be known that this model is standard. That it represents, both in body and chassis, the best that we know about car building. And the price is the lowest that ever was offered on a car built like this.

Let buyers know that we are giving them our best in this car. That we haven't in mind anything newer or better or lower in price. WE ARE, AS WE ADVERTISE, BUILDING A CAR TO KEEP. Let men know that we shall not discredit it by any new announcement.

Very sincerely yours,

REO MOTOR CAR COMPANY

R. C. RENSCHAW, Sales Manager.

### MYSTERY STILL SHROUDS FATE OF THE BALLOON SPRINGFIELD

Is Only One of Four Which Sailed From Portland, Ore., Thursday Unaccounted For—Carries Springfield, Ill. Pilot.

Portland, Ore., June 13.—Mystery tonight shrouds the fate of the Balloon Springfield, of Springfield, Ill., that sailed from Portland Thursday in a long distance race under the auspices of the Aero Club of America. This is the only one of the four contestants unaccounted for tonight.

The Kansas City III, carrying Jno. Watts of St. Louis, pilot, and Roscoe Fawcett, aide, landed safely in Marion county Oregon yesterday morning according to word received here today. The Kansas City III descended on a rough mountain slope after a voyage without serious mishap lasting over seventeen hours at a point nine miles north of Cascade, seventy-eight miles on a direct line, south of Portland. Watts and Fawcett arrived late today at Cascade, Captain John Berry of St. Louis, pilot, and George Y. Morrison, his aide of the Balloon Million Population Club, arrived at Oregon City early today with an exciting story of meeting disaster in a thunderstorm about twenty miles southeast of Portland Thursday night.

Berry was knocked unconscious after his balloon, which was split open 3,500 feet in the air by a bolt of lightning, had dropped into a tree. The other balloon accounted for, the Uncle Sam, was driven to earth and wrecked in the same storm but without injury to its pilot and aide.

Tonight every effort was concentrated on attempting to locate the Springfield which carried Roy Donaldson of Springfield, Ill., pilot, and Wilbur Henderson, aide.

Let us sell you one of our model farm gatts; the quality is high and the price low. Crawford Lumber Company.

## We Keep Your Suit New!

The man who does not have his clothes dry cleaned and pressed frequently,—does not get the full wear out of them.

Long before the clothes are worn out the lapels droop over, the coat front breaks, the sleeves wrinkle and pull out at the elbow, the trousers become baggy and lose their shape at the bottom, and the entire suit looks old and disreputable.

Our service keeps them clean and fresh, keeps them shaped right and fitting perfectly until they wear out. It's not only an aid to good dressing—but a real economy, as well.

Take advantage of it frequently.

## How I Produced 12 Pounds of Beef From One Bushel of Corn.

I bought 44 cattle through Milton Marshall & Co., St. Louis, of Henry Wright, they averaged 961 pounds, March 19, 1914 in St. Louis. I put them in dry lots March 27th, fed them all they would clean up in 30 minutes, crushed corn, cob and all then cooked in the 50 bushel size Wood's Grain Softener.

I put them on grass May 25th, they averaged 1200 lbs. when put on grass. While in dry lot I gave each steer 5 lbs. clover hay. After they ate their grain, I kept oat straw before them all the time, but they would not eat over one bale of straw per day. I fed at 6 a. m. and 6 p. m., at regular hours.

I measured the grain fed with a No. 8 scoop, feeding 50 scoops at each feed or 100 scoops per day, all they would clean up. I put in 20 bushels ground cob corn and all into a 50 bushel vat. This will fill it making 50 bushels feed, which makes 4 feeds, all they will clean up. I drew 50 gallons of syrup off and added 50 gallons of water, then added 1-2 bushels of ground oats and shorts, with which I am feeding 80 pigs that are doing well.

I will feed the cattle about 30 days longer and would be glad to have any one interested come and see them.

### WINCHESTER WATER WORKS.

The Capital of Scott Is Constructing a Plant to Supply the City With Good Water.

The city of Winchester is having constructed a system of waterworks which promise to be of the greatest benefit to the place. The supply is obtained on the farm of A. P. Groat, about a mile and a half from the place where are gravel beds which are regarded as an unfailing source of water of good quality, passed on by the University of Illinois. It is not soft, but is pure and otherwise pronounced all right.

There are to be two eight-inch wells down to the gravel bed, which is less than fifty feet below the surface. The mains are some eight inches, some six, some four and some two. They are so distributed about the place that the most remote house from a hydrant will be no more than a thousand feet distant. The distribution is secured by an elevated tank holding 80,000 gallons and located on an eminence just south of the town. That and the pumps going are supposed to serve the place with plenty of water in case of fire and for regular use.

The water will be sold by meter, but the rates have not yet been fully decided on, but will probably be in the vicinity of 40 cents a thousand gallons. There are in all nine miles of mains and they are well scattered about the place and a large portion of the city is served.

The city voted a bond issue of not to exceed \$30,000 and the contract for the entire plant, wells, pumps, hydrants mains and standpipes, was \$2,000 which certainly seems cheap for a good job. The place has a population of about 1,600 and the supply of pure water will be a great blessing.

Work is being pushed rapidly and it is expected that the water will be turned on in a few weeks.

### Garden Sass

By WALT MASON.

Oh, luscious greens! young beets and beans, fresh peas and new potatoes! With fork and spoon, morn, eve and noon, we push them in our craters. The pale wax bean is good, I ween, and succulent and tender; the carrot red is thoroughbred, the onion's clovered in splendor. When comes my stomach hums—at least I have that notion; and as I throw the greens below it trembles with emotion. Sometimes it stalls at codfish balls, and balks at beef or mutton, at corn beef hash and kindred trash, and hints that I'm a

glutton. But I may pass down garden sass until I'm tired of chewing, my stomach makes no cranky breaks, it still is up and doing. Too much we eat of pie and meat, the doctors oft inform us; in summer days we stupid jays devour the things that warm us. Fresh garden sass, good sparrow grass, the onion, beet and lettuce—these are the things to eat, by jinks, then health will not forget us. So let us swat the garden plot, and rob it of its treasures; oh, let us feed on yarb and weed, and taste the simpler pleasures.

### MAINE PRIMARIES MONDAY.

Augusta, Me., June 13.—Primaries will be held Monday for the nomination of candidates for state, congressional and county offices. Three parties will participate in the primaries, the Republican, Democratic and Socialist. At the last election the Progressive party was not a factor in Maine and the Prohibitionists did not poll a vote large enough to entitle them to participate in the primaries so the names of the candidates of these two parties must be petitioned to the ballots for the state election which will be held on September 14.

The campaign for places on the state and congressional tickets has attracted comparatively little attention, owing to the lack of contests. Governor Haines and the four Maine congressmen, three of whom are Republicans, have no opposition for re-nomination. Harold M. Sewall of Bath is the only candidate for the Republican nomination for congressman in the Second district, which is now represented by Congressman Daniel J. McGillicuddy, Democrat.

The principal contest in the primaries will be the head of the Democratic state ticket. Those who aspire to the Democratic nomination for governor are Mayor Elbert D. Newbert of Augusta, Mayor Oakley C. Curtis of Portland, Peter C. Keegan of Van Buren and Bertrand G. McIntyre of East Waterford.

### OILING THE ROADS.

A movement is on foot to oil the roads south of the city and enough has been secured to do the work from the end of the South Main street pavement to Mr. Summers' residence near the Maple Grove schoolhouse. A part of the money has been subscribed to oil the Vandalla road from the South Main road to Nichols' park or the Chicago & Alton right of way.

The matter of dust on the park drives is a subject causing the park board a great deal of thought and anxiety. There is not enough money to keep the sprinkler going all the time enough to keep down the dust and oil on the drives must be managed with great care. It may possibly be used on the north slopes, but it will not do to let it be placed in any way that will enable it to drain into the lake, as it would be almost certain to kill the fish and render the water undesirable for bathing also.

The park board desires to do all possible for the comfort and welfare of the people who flock out there in such large numbers, and many difficult questions are presented from time to time.

## Two Weeks or More in Colorado—as Inexpensive as Home

You will be surprised to learn how little it costs to spend two weeks or more in Colorado. Our representatives have corrected many wrong impressions about Colorado's Hotels and Boarding Houses. The Burlington gets out a booklet showing how reasonably and pleasantly one can spend a vacation in Colorado.

"I would love to go to Colorado on my vacation this summer, but the hotel prices are so high"—used to be the expression of many five minutes' talk convinced them otherwise. Colorado has her share of elaborate Hotels, but Colorado has lots of comfortable boarding places where the rates are as low as \$8.00 a week—clean surrounding and wholesome, appetizing fare.

Come in and see me. I will be glad to give you a copy of our interesting booklet. It will give you an entirely different idea about Colorado's hotel expenses, a list of hotels and boarding houses, their locations, rates, elevations, etc.; also full particulars on Colorado—it attractions and points of interest.

## ENGLISH CHALLENGERS TAKE FIRST GAME OF POLO MATCH

Defenders Are Completely Demoralized by Speed and Team Work of Hurlingham Club Players.

Meadow Brook Polo Club, Westbury, L. I., June 13.—Completely demoralized by the speed and team work of the English challengers, the American team went down to defeat here this afternoon in the first game of the match for the international polo cup by a score of 8 to 2 to 3.

After the first flurry in the opening period the defending four never held the sway, being outplayed and outscored by the Hurlingham club representatives and the English ones.

The defeat came as a great surprise to the majority of the 40,000 spectators who had expected an American victory and made the cup defenders 10 to 7 favorites in the wagering previous to the game.

They were quick to appreciate the brilliant play of the invaders, however, and the stands rang with applause at the clever exhibition of team work and good shooting of the blue-shirted riders from England.

The American four were far weaker than was the case last year and in addition were called upon to face a team which surpassed in skill and speed the combination which just failed to lift the cup in 1913. The absence of former Captain Harry Payne Whitney appeared to break up the perfect combination play for which the "Big Four" has been noted for years.

GROVER ALEXANDER IS  
AGAIN MAINSTAY OF  
PHILLIES IN THE BOX.

Photo by American Press Association.

Grover Cleveland Alexander is again carrying the bulk of the Phillies on his able shoulders. Two years ago, with Chalmers as an aid, Alexander made a great bid for the pennant, and last year, in collaboration with Seaton, he made the batters balky. Since Seaton's jump and the trading of Chalmers Aleck has been left very much alone, but he is nevertheless one of the finest pitchers in the game.

# Gifts for the June Bride

The uncertainty of giving something that will be duplicated is reduced to the minimum when you make the tribute a decorative and useful piece of furniture for the bride's new home. And the recipient will be gratified at your thoughtfulness.

A card table, muffin stand, serving tray, tea table, book stand or framed mirror in fine mahogany is highly expressive—but there are many other novel suggestions here quite as appropriate for the event. A few moments spent in contact with this carefully chosen stock of inexpensive gift pieces will likely save you lots of time—

## UNIVERSITY HIGH OF CHICAGO TAKES MEET

DEFEATS FIELD OF 100 SCHOOLS FROM SEVENTEEN STATES.

Butler of Hutchinson, Kan., Makes All of 14 1-6 Points Credited to His School Excepting the Fraction, Giving His Team Second Place—Roodhouse, Ill. Gets Third Place—Jacksonville Athletes Make 5 1-2 Points.

Chicago, June 13.—University High School of Chicago today won the thirteenth annual interscholastic meet at the University of Chicago, defeating a field of 100 schools from seventeen states. The local school won because of the superiority of its sprinters who scored 14 of the 27 2-3 points won.

Sam Butler, the fast little negro from Hutchinson, Kansas, was the sensation of the meet. All of the 14 1-6 points credited to his school were made by him with the exception of the fraction. He won the hundred yard dash, the broad jump and was second in the 220 sprint. His performances made him the individual point winner. The sixth of a point was made by his only teammate who shared last place in the vault with five others.

Husted of Washington high, Roodhouse, Ill., put his school in third place by scoring 12 points in the weights. He won the discus, was second in the hammer throw and third in the shotput. Freeport, Ill., was fourth with 10 and Hector, Minn. fifth with 9.

Scores of the other teams were: West Des Moines, Iowa, 8; Laramie, Wyo., 8; West Division Milwaukee, 7; Fairbault, Minn., 6 1-2; Oklahoma City, 6-12; South Division Milwaukee, 6; National Cathedral, Washington, D. C., 6; Lewis Institute, Chicago 6; Marshalltown, Iowa, 6; Mechanics' Art, St. Paul, 6; Jacksonville, Ill., 5 1-2; Oak Park, Ill., 5; St. George, Salt Lake, 5; Muskegon, Michigan, 5; Crane Tech, Chicago, 4 1-2; North Berlin, Ind., 4 1-2; Parkers, S. D., 4 1-2; Sioux City, Iowa, 4; Mitchell, S. D., 4; Pittsfield, Ill., 4; Sioux Falls, S. D., 4; Oshkosh, Wis., 3; Calumet High, Chicago, 3; Evans-ton Academy, Ill., 3; Wichita, Kan., 3; Carl Schurz, Chicago 3; Cham-paign, Ill., 2 1-2; Kansas City 2 1-6; West High, Minneapolis 2 1-6; Lake Forest, Ill., 2; El Paso, Tex., 2; Santa Rosa, Calif., 2; Alogon, Mich., 2; Loyola, Chicago 2; Fort Smith, Ark., 2; Rice Lake, Wis., 3; Lane Tech, Chicago 1; Dallas, Tex., 1; Beardstown, Ill., 1; Nickerson, Kan., 1; Algona, Iowa 4; Kenilworth, Chicago 1-6; Waukesha, Wis., 1-6.

The meet was run off during a drizzling rain and under the conditions the records of the runners are considered remarkable. Carter University High defeated Butler in the 220 dash in 22 flat. It was the prettiest race of the day. In the century sprint Carter was forced to change places with Butler who covered the distance in an even ten seconds.

Cannon of Jacksonville tied for third and fourth place in the pole vault with Kirkpatrick of Cham-paign. Sutherland, also of Jacksonville, took third in the 12 pound hammer throw.

**TEN THOUSAND SEE DAVID CRAIG WIN THE INTERNATIONAL DERBY**

Waterbass, the Favorite, Sets a Dazzling Pace, But Finishes Fourth—John Grund Takes Kentucky Derby.

Montreal, June 13.—Ten thousand people saw David Craig win the international derby at the Dorval track today. Luke McLuke was left at the post. The favorite, Waterbass, set a dazzling pace and on the back stretch opened up a long lead, but rounding the far turn, David Craig, who had been trailing the leader, moved up.

At the head of the home stretch David Craig caught Waterbass and in the final quarter drew away into an easy lead, winning by a length in 2:08, with Gainer second and Luke McLuke third, three-quarters of a length ahead of Waterbass. Black Broom also ran.

**Grund Wins Kentucky Derby.**

Cincinnati, O., June 13.—John Grund, ridden by Naylor, won the thirty-second Kentucky derby at the Latonia, Ky., race course today. Constant, with Waldron up, was second, and Dr. Samuel, piloted by J. Henry, was third. Time, 2:30 1-5. Bronze Wing and Casuarina also ran.

The race was worth \$4,950 to the winner, \$800 to the second horse and \$400 to the third. In the Pari Mutual betting John Grund and Constant, coupled in the betting, paid \$4.80 to win and \$4.40 for place on the \$2 tickets. There was no show betting. Ivan Gardner was scratched.

**GOETHE STATUE UNVEILED IN CHICAGO.**

Chicago, June 13.—A statue of the German poet Goethe, a gift to the city from the Goethe society of Chicago, was unveiled in Lincoln park today with interesting exercises. One hundred German societies of Chicago and vicinity participated in the program, which consisted of speeches, recitations and music.

The statue is of bronze and is 18 feet in height. It was executed at Munich by Professor Herman Hahn, who was present at the unveiling. The figure of the poet stands on a graphite base. On the front of the base appears Goethe's mask. Goethe is pictured as a powerful, ideal figure, standing with one foot raised on a rock. An eagle is perched on the knee.

## HARVARD CREW CANDIDATES HAVE PLENTY OF POWER.

Photo by American Press Association.

Rowing authorities at Cambridge are greatly worried over the work of the eight oared varsity crew. Many shifts have been made in an effort to bring smoothness and power into the boat, but, although the power is undoubtedly there, smoothness is sadly lacking. If Coach Jim Wray can get his men rowing together Harvard stands an excellent chance to repeat with a victory over Yale this season, as the Ell crew has suffered greatly from injuries and ineligibility.

## GEORGETOWN'S 125TH ANNIVERSARY.

Large Numbers of Former Students Return to Help in Celebration.

Washington, June 13.—Two thousand former students of Georgetown university have returned to their alma mater to help in a celebration of the 125th anniversary of the founding of the institution and all that it has accomplished during the century and a quarter of its existence. Beginning with an alumni banquet tonight the celebration will be continued through the greater part of the coming week.

Tomorrow morning high mass will be celebrated in Dahlgren chapel, and a sermon will be delivered by Rev. J. M. Prendergast, S. J., of Brooklyn college, a member of the class of 1889. The afternoon is to be devoted to the renewal of college ties among the returning students and to reminiscences of the old days. In the evening President Donlon and the members of the university faculty will hold a reception for the alumni, which will be followed by a band concert on the campus.

Class day exercises and athletic contests will be held Monday. Tuesday will be given over to commencement exercises. The address to the graduating classes will be delivered by Governor Martin L. Glynn of New York.

Georgetown university is the oldest Catholic seat of learning in the United States. The founder of the institution as it exists today was Father John Carroll, who became the first American bishop.

But many years previously the college had its beginning in the Indian school taught by Father Andrew White, S. J., at St. Mary's City, Md., in 1634, the year of the landing of the Ark and Dove at St. Mary's

under Leonard Calvert, brother of the second Lord Baltimore.

The Indian school passed to Calvert manor under Father Thomas Copley, S. J., and Ralph Crouch in 1640; to Newton Manor under Father Forster, S. J., in 1677; to Bohemia Manor under Thomas Poulton in 1680; to Newton Manor under Father Carroll in 1789. From its inception the institution has always been under the auspices of the Society of Jesus.

In 1815 congress conferred the power of granting college and university degrees; in 1833 the holy see bestowed the privilege of giving in its name degrees in philosophy and theology. In 1844 the formal incorporation of the institution was effected by congress. In 1842 the college equipped a complete astronomical observatory, and in 1909 a seismological observatory was installed.

The school of medicine was opened in 1851 and the school of law in 1870. The university hospital was opened in 1893 and the training school for nurses in 1902. The university makes no distinction in the reception of students on the ground of religious belief. There are at present more than 1,600 students and faculty of 175 members.

## OHIO STATE COMMENCEMENT.

Columbus, Ohio, June 13.—Many visitors are here for the exercises and festivities of commencement week at Ohio State university. The program will begin tomorrow morning with the baccalaureate sermon by President William O. Thompson. Class exercises will be held Monday and the reunions of the alumni on Tuesday. Wednesday will be commencement day, when the address to the graduates will be delivered by Dr. George H. Vincent, president of the University of Minnesota.

## Lord Kitchener's Way.

Lack of funds was upon one occasion the excuse brought forward by a head of department as the reason for not proceeding with certain public works at Cairo. Lord Kitchener, with characteristic terseness, scrawled across the official document in blue pencil, "Find the money." Needless to say, the money was found.

Another time when the question of making a roadway from Cairo to Helouan, a distance of fourteen miles, was broached Kitchener asked the responsible engineer if the road could be completed by a certain date—May 1. He was told it could scarcely be done.

"But is it possible?" asked Kitchener. "It's possible, but—"

"Very well, then," came the Napoleonic reply. "I shall drive my car from Cairo to Helouan over that road on May 1." And he did.

## Left at the Post.

The Professor's Wife (to the professor, who has just come in from a walk)—What have you done with your umbrella and Fido? The Professor (trying to remember)—What—hm—wait a minute. Oh, yes; precisely. You see, my hat blew off, and I didn't want to have the poor little beast run with me after it, so I stuck the umbrella in the ground somewhere and tied Fido to it. I suppose they are still there.—New York Post.

## Baby's Picture

Baby days and baby ways are over all too soon.

A good picture, though, will keep the memory of those days fresh thru all the years of growth and change.

When was your baby's picture taken?

## NOTES FROM THE LABOR WORLD.

The city to Quebec is to have a labor temple.

Teamsters in La Crosse, Wis., have won a fight for a wage increase of 5 cents an hour.

The membership of the British Amalgamated Society of Engineers has been increasing at the rate of 1,000 a month.

The latest reports show that there are now more than two million members of the trade union movement in America.

The American Brotherhood of Slate Workers will hold its annual convention in Bangor, Pa., next September.

One of the richest of labor organizations is the English Bookmakers' Federation, which has \$800,000 on hand.

It is said that the majority of women workers in Great Britain receive wages averaging less than \$3 a week.

The United Mine Workers of America is planning to unionize every large coal mine in Texas and Arkansas.

The steamfitters of New York city have finally decided to amalgamate with the United Association of Plumbers and Steamfitters.

Washington, D. C., is to be the meeting place this year of the annual convention of the Operative Plasterers' International association.

The wages of the 87,535 men and 3,926 women in the trades unions of Missouri increased \$1,245,984 during the year ending June 30, 1913.

Samuel Gompers is 64 years old and has been president of the American Federation of Labor for half that period, or for 32 years.

Winnipeg will entertain the annual convention of the International Brotherhood of Maintenance of Way Employees, which is to meet there on September 7.

A referendum vote of the membership of the National Brotherhood of Operative Pottery has resulted in the re-election of President Edward Menze and other principal officers of the organization.

The printing craft is said to be better organized in Germany than in any other country of the world, more than ninety per cent of the German printers being members of the union.

One of the largest and most important labor conventions of the year will be that of the United Garment Workers of America, which will hold its sessions in Nashville, Tenn., during the second week of October.

In its annual convention held recently in Boston the International Seamen's union adopted a resolution declaring that the disasters to the Empress of Ireland, the Titanic and other vessels were directly traceable to undermanning and the employment of unskilled seamen.

## Valuable City Advertising.

During the coming week representative business men and retail merchants, who appreciate organization work, will be the guests of our business people. Much of the success of the convention depends on the interest which our local citizens show in extending to the visitors every possible courtesy. Particularly is it necessary for each of us to take time from our business to do one or more of the following things.

1st—To attend the sessions of the convention for our own particular benefit and to make additional friends.

2nd—To furnish automobiles if we own them so as to make the tour of the city a success.

3d—To decorate our windows and store fronts, even if it does necessitate the purchase of more flags and bunting.

4th—To reserve a plate at the annual banquet which will be something fine for \$1.00 per plate.

Eighteen years have elapsed since the Illinois Retail Merchants association held their last convention in Jacksonville. A great many changes have taken place during that time and many new faces appear in the service of the organization today. We are hoping that the merchants will be as pleased with the entertainment, as were the traveling men who visited us last month.

## Oiling Vandalla Road.

One of the most progressive projects which has been recently proposed is the oiling of Vandalla Road as far as the entrance of Nichols park. It is understood that the property owners on South Main street will again oil this road and those people living along the Vandalla Road, together with the Jacksonville Street Railway Co. will contribute liberally of the four hundred dollars which is approximately the amount required. Additional support should be forthcoming from the Village Board of South Jacksonville, by the Chautauqua association, the Park Board and public spirited citizens.

## Booster Club is Busy.

The responsibilities are being gradually assumed by young men of the city in betterments for their home town. Many of our older citizens do not like to inconvenience themselves by giving of their time or money to community enterprises. If the young men will continue their activity they will be setting an example which we have badly needed.

Here are some of the projects which committees of the young men

have been working on and which some day should be accomplished. Building and equipping a swimming pool for Nichols park, endorsing the plan to save our most prominent trees, establishing a rest room for Jacksonville, working with the Park Board for big fourth of July celebration and providing other conveniences at Nichols park.

The Chamber of Commerce is very proud of the Young Men's department of their organization.

## Cresote Pavements at Quincy.

Because of the recent agitation for paving our principal streets, parts of an editorial recently published in the Quincy paper should be of interest to our citizens.

"For anyone to say that wooden blocks are bad paving is too ridiculous for serious consideration. Quincy's citizens point to them with pride. Even now, they are in all the dressness that has been allowed to come to them, the finest paving in Quincy. They indicate a progressive spirit upon which visitors to Quincy invariably comment. If wooden blocks were in front of the Quincy Chamber of Commerce, speakers in that hall would appreciate the quiet and their relief from shouting, and auditors from their relief of ear strain."

## Get Acquainted Tour to Ashland.

No one will conjecture to estimate the good that it did for nearly twenty-five of our prominent citizens and business men to visit the Ashland Horse Show last week. The reciprocal commercial relations can best be established by such friendly visits and it behooves us to take advantage of them when the opportunity arises. Chamber of Commerce Activity is Being Observed.

A recent communication from the International News Bureau informs our association that they have noticed the great activity which we have been showing. They also comment on the extensive publicity and press notices which we are giving to the city of Jacksonville. In their daily news bulletin which includes a newspaper clipping service they mention the fact that the Jacksonville Chamber of Commerce has suggested to their members that they invite their friends and relatives to visit Jacksonville during some time of their vacation. Extensive use of automobiles makes this now more feasible.

DAUGHTERS OF REVOLUTION.

Minneapolis, June 13.—Delegates from many states have arrived in this city for the 23rd annual meeting of the general society of the Daughters of the Revolution. The convention program will begin tomorrow with exercises in celebration of Flag day. Monday will be devoted to a reception of the visitors, with a banquet in the evening at the Hotel Radisson. The first of the regular business sessions will be held Tuesday morning. Mrs. Clarence L. Bleakley of New York, the president general, will preside. The sessions will conclude Wednesday afternoon with the election of officers.

## FOURTH OF JULY WILL BE PROPERLY CELEBRATED

Arrangements Completed at Meeting Held Saturday—Program Will Be at Nichols Park—Committees Appointed.

A meeting of those especially interested in celebrating the Fourth of July was held at the Ayers National Bank Saturday morning and plans for the enterprise were matured. It was decided to appoint committees to select a program and raise funds for the purpose and there was much enthusiasm manifested on the subject.

The members of the park board were present and with them was a committee of the young men's booster club, Secretary Fitchey of the Chamber of Commerce, W. A. Newman, W. C. Howe, W. S. Camp and W. B. Miser of the Jacksonville Railway and Light Company.

Various matters were discussed and different plans talked over. All seemed well agreed that fireworks would come first of all; then the band and then as many other attractions such as balloon ascensions, all kinds of athletic contests, high dive, base ball, dances in the pavilion and whatever is practicable.

On the program Geo. M. Imgrund, W. B. Miser and W. H. Anderson were appointed.

On finances, Wm. Newman, W. C. Howe and the young men's booster club, and all have authority to draft into the service any one whom they request and no one is permitted to decline to serve. It is the earnest desire of all connected with the matter to make the day all it should be and though the time is not as long as it might be still there is enough left yet to do lots of work and get things going in good shape.

Any person willing to assist financially will do a favor by calling on any one of the soliciting committee and any one having a suggestion regarding amusements of any kind will do well to speak to any one on the program committee.

## HISTORY OF THE ATTACK ON WOMAN SUFFRAGE LAW

Springfield, Ill., June 12.—The Sponen suit filed in the superior court of Chicago by William Sponen as a taxpayer demanded that the election commissioners of that city be forbidden to incur expense in providing facilities for women voting at the February primaries in 1914 on the ground that the woman suffrage act passed by the last legislature was unconstitutional and void.

The bill was dismissed for want of equity by the superior court chancellor and an appeal was promptly prayed in the supreme court where arguments were heard and briefs filed.

During the pendency of the appeal the spring elections were held throughout the state including the township elections in which the local option question was raised in nearly 300 townships. At these elections thousands of women voted and sixteen counties and more than a hundred towns were added to the dry column, through the votes of Illinois women.

Counsel for Sponen contended that the woman's suffrage act in effect was an amendment to the constitution and as such could not be sanctioned by law. The section of the suffrage act permitting women to vote "upon all questions or propositions submitted to a vote of the electors", was attacked as a direct violation of the provisions of the constitution.

The point was also raised that the suffrage act in reality mended the general election laws although no reference was made in its title to its amendatory effect, as is demanded by law.

Counsel for the Illinois Equal Suffrage association joined with counsel for the Chicago election commissioners in defending the law and contended that the provision relating to "propositions submitted to a vote of the electors", should be construed as meaning those propositions not covered specifically in the constitution. To the general argument against the constitutionality of the act the defenders of the measure replied that Sponen's attorneys "sought to reopen the entire question of women voting and turn the clock back twenty-two years."

## TO WELCOME APOSTOLIC DELEGATE.

Charlottetown, P. E. I., June 13.—Mgr. Stagni, the apostolic delegate to Canada is expected here tomorrow to pay an official visit to the province. He will be greeted with a big reception at St. Dunstan's pro-Cathedral. During his stay in the city Mgr. Stagni will be the guest of Bishop O'Leary.

## PEORIA CLUB WILL PLAY HERE TODAY.

The fast Peoria professionals, better known as the "Puffs", will play the Eagles this afternoon at 2:30 at Nichols park. This is one of the fastest teams ever scheduled by the Eagles and the contest promises to be a fast one from start to finish. The Eagles are in fine form and expect to put up their best game. The line-up as announced by Manager McCollister will be: Alrman, ss; Woodman, cf; De Frates, 3b; Abel; Clark, c; Wheeler, 2b; McCollister, 1b; White, rf and p; Simms, p.

## FUNERAL NOTICE.

The funeral of Robert Palmer will be conducted at 2:30 o'clock from the family residence, 1516 South West street, in charge of Rev. J. W. Miller. Interment will be made in Diamond Grove cemetery.

## UNDERWENT OPERATION.

## A DARING PATRIOT

Feats of a Little Known Hero of Revolutionary Times.

### JACK JOWETT'S BRAVE RACE.

It Saved Jefferson and the Virginia Assembly From Capture by Tarleton's Dragoons and Gave General Washington Valuable Information.

Most of the Revolutionary heroes have been immortalized in song or story, but there is one whose fame has never spread, as it should, beyond the region of his birth. His name was Jack Jowett. In the little city of Charlottesville, Va., there is a tablet on the building that stands on the site of his old tavern. But that simple bronze is the only memorial of his name and deeds.

In Revolutionary days young Jack Jowett kept the Swan-tavern in Charlottesville. He was a patriot at a time when patriotism was dangerous, for Cornwallis was in possession of tide-water Virginia, and Tarleton and his cavalry were sweeping back and forth over the inland counties.

In June, 1781, the Virginia assembly abandoned Richmond, which Cornwallis threatened, and came to sit in Charlottesville. Among its members were such men as Patrick Henry, Richard Henry Lee and Benjamin Harrison, and the governor was no other than Thomas Jefferson. One bright morning when the state assembly was in session Jack mounted his thoroughbred mare and rode out to look over his farm outside the town. As he rode along he caught through the trees a glimpse of a British uniform flashing down a crossroad. He put his horse over the low stone wall and confronted the rider. It was one of Tarleton's troopers.

With a big pistol pointed at his head, the Englishman thought it wise to obey Jack's command to turn in at the gate of a nearby house and change clothing with him. Under threat of death the soldier divulged the fact that Tarleton was in the vicinity. Jowett at once galloped away in search of the enemy. The day passed without result, and Jack stopped at an inn to take a few hours' rest.

In the night he heard the tramp of horses and, looking out of his window, saw that the yard was full of British soldiers, led by Tarleton himself. The troopers entered the tavern and sat down to drink and talk, quite unconscious that an enemy was on the stall above listening to every word. From their conversation Jowett learned that Tarleton commanded an advance guard that was halting to wait for the rest of the troop. Then they planned to dash on to Charlottesville and capture the Virginia assembly.

Jack Jowett set out at once in the cool of the dawn. Once he was chased by some troopers who trotted in from the pike that crossed his path, but his bay mare soon outpaced theirs. Like the wind he raced through lanes, over low stone fences, up the side of the hill to beautiful Monticello, the home of Governor Jefferson. He warned Jefferson of the approach of the British, and then, with a fresh horse, he dashed down the steep mountain road into Charlottesville. Rushing into the hall where the assembly was in session, he called to the members to flee, for Tarleton's dragoons would soon be at their heels. In a few moments the hall was empty, and the members were on their way across the mountains to Staunton, where they would be safe from pursuit.

Jack rode on to his tavern, but found there a wounded officer of the Continental army—General Stevens. He dressed the sick man in a suit of his own clothes, carried him downstairs and put him on the fresh horse, with bags of corn in front and behind—the very picture of an old farmer going to the mill. Side by side Jowett and Stevens rode out of town, which by 10 o'clock was in the possession of Tarleton's men. Pausing as he reached the top of a hill, Jack saw his own tavern in flames.

The British, who had reason to suspect the young man in a uniform, set out in chase of him, but Jack's horse was again too speedy for them, and he got safely away to Washington with the news that Tarleton was no longer acting in support of Cornwallis—a bit of information that was of the greatest value to the commander of the Continental army.

To Jack Jowett's quick wit and daring the author of the Declaration of Independence and many another hardly less famous patriot owed their liberty and perhaps their escape from a traitor's death upon the scaffold. Youth's Companion.

### A Marshal's Retort.

It is on record that the Prince of Orange, filled with rage because he had been beaten at Fleurus, Leuze, Steinkerk and Nervind, alluding to the Marshal of Luxembourg:

"Can it be that I shall never beat that hunchback?"

"How does he know that I am a hunchback?" said the French marshal. "He never saw my back; I always saw his."

Misgivings.  
"I want to go to my glazier's, only he gives me a pain."  
"And I would like to go to my grocer's, but he'll give me a weigh."—Baltimore American.

For himself doth a man work evil in working even for another.—Hesiod.

## NEWS FORECAST FOR THE COMING WEEK.

Washington, June 13.—The Republican, Democratic and Socialist parties in Maine will engage in a general primary Monday for the nomination of candidates for state, congressional and county offices. Governor Haines and all of the present representatives in congress will be renominated without opposition. Minnesota will hold general primaries for the nomination of candidates for state, congressional and county offices. Governor Eberhart

is a candidate for renomination on the Republican ticket and is opposed by William Lee of Long Prairie. Congressman Winfield S. Hammond and Daniel W. Lawler of St. Paul are the opposing candidates for the Democratic nomination for governor. The Progressive, Prohibition and Socialist parties have selected state tickets which will be named without opposition. There are contests for congress in nearly every district. Republicans of the state of Washington will hold a convention in Tacoma Thursday to adopt a platform and make other arrangements for the coming campaign. Another political convention of the week will be that of the Progressive party of

Louisiana, which will meet Thursday in New Orleans.

President Wilson has promised to go to Valley Forge, Pa., on Friday, to dedicate the nation's memorial to the patriots who suffered there in a winter campaign under Washington for the independence of the American colonies.

The official investigation of the Empress of Ireland disaster is to be begun in Montreal Tuesday with Lord Mersey as chairman of the committee of inquiry.

A notable wedding of the week will be that of Miss Madeline Edison, daughter of the famous inventor and of the Northern Baptists, in Boston; Mrs. Thomas A. Edison, and John Eyre Sloane, which is to take place

Wednesday at the Edison home near Orange, N. J.

Colonel Roosevelt, who is on his way home from Madrid, is to deliver an address Tuesday before the Royal Geographical society in London. Other events of the week abroad will be the presidential election in Santo Domingo, an international conference on the suppression of the opium traffic, which will be at The Hague, and an international conference which will meet in Christiania to decide the status of Spitzbergen.

Among the conventions of the week will be the general convention of the Northern Baptists, in Boston; the convention of the national society of the Daughters of the Revolu-

tion, in Minneapolis; the Upper Mississippi River Improvement association at Stillwater, Minn.; the National Wholesale Grocers' association, in Minneapolis; the Southern Wholesale Grocers' association, in Charleston, S. C., and the triennial meeting of the head camp of Modern Woodmen of America, at Toledo.

Commencement exercises will be held during the week at Yale, Harvard, Princeton, Cornell, Pennsylvania, Brown, Ohio State University, University of Illinois, and many other leading colleges and universities in all parts of the country.

## Blood Troubles Are Often Hard to Locate

Catarrh, for Example May Be the Cause of Very Serious Illness.

**A Slight Trouble Often Brings Serious Blood Disorders.**

A chronic cold means something wrong constitutionally. Pimples mean bad blood. Rheumatism means faulty circulation. These and a hundred other symptoms are easily recognized, but where is the trouble. Where is it located? What is wrong with the bodily machine?

If you will go into any first class store and get a bottle of S. S. S. you are on the way to getting rid of those conditions that cause sickness and disease. But don't let anyone work off that old trick of something "just as good."

S. S. S. is taken into the blood just as naturally as the most nourishing food. It spreads its influence over every organ in the body, comes through all the veins and arteries, enables all mucous surfaces to exchange inflammatory acids, and other irritating substances for arterial elements that effectively cleanse the system and thus put an end to all pollution. S. S. S. cleans out the stomach of mucous accumulations, enables only pure, blood-making materials to enter the intestines, combines with these food elements to enter the circulation, and in less than an hour is at work throughout the body in the process of purification.

You will soon realize its wonderful influence by the absence of headache, a steadily improved condition of the skin, and a sense of bodily relief that proves how completely the entire system was loaded with impurities.

You will find S. S. S. on sale at all drug stores. It is a remarkable remedy for any and all blood affections, such as eczema, rash, lupus, tetter, psoriasis, boils, and all other diseased conditions of the blood. For special advice on any blood disease write to The Swift Specific Co., 223 Swift Bldg., Atlanta, Ga.

Do not trifle with substitutes. Imitations or any of the horde of "just as good" Counterfeits of S. S. S.

### POULTRY CULTURE.

Article 35.

(From an address by R. C. Lawry, manager, Yesterday Egg Farm, before the Illinois Farmers' Institute).

**More Money for Eggs**—“Give the hen the attention she merits. Keep only pure bred varieties. House them comfortably and feed them well. Endeavor to have the hen consume large amounts of the right kind of food. Confine her within certain definite bounds so that, while she is not crowded and hampered, yet she will not have an opportunity to run about the farm wasting her energy, losing her eggs, and making herself a general nuisance.

“Exercise is necessary to the best health of poultry; in excess it costs the keeper money in the form of feed bills and should be restricted. We do not make the dairy cow hunt about all day for material to fill her stomach and then expect her to direct all her energy toward milk secretion. Why should we expect the hen to perform such a feat? During the breeding season it is well to let the breeders have plenty of exercise, for at that time of the year when eggs are naturally cheap we can sacrifice in numbers for the gain in hatching power. (Hens on free range lay fewer eggs and eggs of smaller size than hens kept within limited areas and fed regularly.)

“Getting eggs is not the whole story by any means. Taking proper care of them and marketing them at a profit requires an exercise of good judgment. Thousands of dozens of eggs are dumped on the market in the spring, and because the price is low, people do not go to any trouble to have eggs clean, nor to have them all of one color or all of one size; they hold them until they get a lot of them and then take them to the country merchant or dealer, and he gets overstocked. The merchant ships them to the commission house and there they are candied and put into storage. So much time passes between gathering the eggs and putting them into storage that many spoil on the way. Only about 60 eggs out of every 100 that are produced get to the market in a condition that is suitable for immediate use or for storage.

“The price of all eggs starts with storage eggs as a basis; that is when the large majority of the egg demand is supplied by storage stock. If the market is filled with storage stock, it keeps the price of fresh stock low. If all the eggs that were sent to market and put in storage has been 100 per cent first grade eggs instead of 50 per cent to 60 per cent in the spring, the price of fresh eggs would be relatively higher in the fall.

“The day is past when the consumer can be satisfied with apparently good eggs, even sold as fresh, and are fresh within the limits defined by that word in letter if not in spirit.

“An egg must have quality if it is to command the highest price and find favor with the best class of trade. It has long been understood that there is a wide range in the desirable qualities of milk, and now the public is beginning to appreciate that there is also a difference in the quality of fresh eggs. We are going to be forced to adopt some other word to describe the desirable qualities of eggs which will mean more than fresh, or new laid, because either of these words may be misleading, though not intentionally so, when an egg is being bought for its superior quality. I can think of nothing which would better describe the kind of egg in mind than the words “good eggs.” If those two words were not abused they would come to mean a great deal to the purchaser as well as the producer.

“An egg may be new laid and fresh within the limits of the meaning of those words and still be decidedly not a good egg. Eggs readily absorb odors and taints, so that a new laid egg, if placed where it is exposed to unpleasant odors may quickly become unpalatable as an article of food.”—H. A. McKee, Secretary, Illinois Farmers' Institute.

### AT THE PLAYGROUND.

The first ward playground is assuming shape daily and things are now quite well arranged in that locality. More appliances could be used but still there is a fairly good list of swings, trapezes or ring swings, sand boxes or piles, shoot the chutes and the like. The boys are playing volley ball and playground ball and have a series of games now going on. The seats under the trees are being patronized considerably by the adults.

The new well supplies an abundance of good water and now if some kind hearted individual would only give one or two abandoned water closets they would be doing a gracious deed. Is there not some one who has these structures that they would be willing to give the playground. Word left with Terrence Brennan, secretary of the park board, will have prompt attention.

### BIG INTERSCHOLASTIC MEET.

Chicago, June 13.—Hundreds of high school and academy athletes from all over the middle west trooped into the city to compete in the 13th annual interscholastic track and field meet under the auspices of the University of Chicago. In point of attendance the meet eclipsed all of its predecessors. Large and enthusiastic student delegations, bearing gayly colored pennants with the names of their respective institutions, accompanied the young athletes to the field.

### HARVARD COMMENCEMENT.

Cambridge, Mass., June 13.—Final preparations for commencement were at Harvard University were completed today. The first official event of the week will be the baccalaureate sermon to be given by President Lowell in Appleton chapel tomorrow morning. Monday will be set aside as Phi Beta Kappa day and Tuesday as class day. Wednesday will be given over to the alumni and on Thursday the graduation exercises will be held.

### AUTOMOBILE NOTES.

J. S. Campbell and wife of Tuscola are visiting at the home of Edmund Blackburn, northwest of the city. They made the trip in a Stoddard-Dayton car and visited the city yesterday.

T. B. Martin and family came up to the city yesterday from Winchester in their Ford car.

Mr. and Mrs. John Curtin and John Curtin, Jr., all came up from St. Louis in a Buick car to visit the Misses Duffner on South East street.

Mr. and Mrs. George Hardin and little daughter Maude of Carlinville were in the city Saturday. The trip was made in a Saxon car.

## Winning Models in the Recent International Hairdresser's Competition

**Beautiful Women Use and Recom'end Newbro's Herpicide**

A woman to be pretty must have pretty hair. There is a subtle charm about beautiful hair that lend more to personal adornment than all of the skill of all the “beauty doctors” combined. The hair need not be of extraordinary or abnormal length, but it must have that distinctiveness of appearance that comes from intelligent care, and is the result of perfect hair health.

The most cultured ladies in every community use Newbro's Herpicide; and when you see a head of hair that glistens with beauty and is radiant with life, it is a fairly good education that Newbro's Herpicide has been used.

Newbro's Herpicide is the original germ remedy for dandruff. It eradicates this trouble and stops falling hair. It is the first real scalp prophylactic. A delightful it eradicates this trouble and stops itching of the scalp almost instantly.

**SATISFACTION GUARANTEED.**

Send 10 cents in stamps to THE HERPICIDE COMPANY, Dept. 111B, Detroit, Michigan, for sample. Two sizes—50c and \$1.00. At all Toilet Goods Counters. When you call for HERPICIDE, do not accept a substitute.

## WEEK'S TRADING IN STOCK MARKET ENDS AS QUIETLY AS IT BEGAN

Seldom Has Wall Street Seen Six  
Consecutive Days When Specula-  
tion Was at a Lower Ebb—Expor-  
tation of Gold Continues.

New York, June 13.—The week's  
trading in stocks came to an end  
today as quietly as it began. Seldom  
has Wall street seen six suc-  
cessive days, in which speculative in-  
terest was at lower ebb. Less than  
40,000 shares were dealt in today.  
At the opening prices eased off.  
The only apparent reason was the  
lower range of quotations from  
London. While the downward move-  
ment was general, it was of small  
proportions. Later demand ex-  
panded and the list made up its opening  
losses. The week's record total of  
gold engagements for export were  
increased today by the booking of  
\$1,000,000. It became known also  
that arrangements had been made  
tentatively for engagement of \$4-  
000,000 or \$5,000,000 on Monday.

## Are Your Glasses Becoming?

You don't want awkward "all eyeglasses" looking glasses.

We have made a study of facial characteristics, and select the size, style and shape of eyeglasses most becoming to the face of the wearer. There is a "knack and know how" about proper eyeglass fitting and adjusting, that we have long ago discovered.

With the glasses we make, you look well from either side.

Grand Laundry.

**PARK MEETINGS BEGIN TODAY.**  
The Centenary M. E. and State Street Presbyterian churches will unite again this year in holding out of door services Sunday evening in Central park. This service will begin this Sunday at 6:30, when Mr. French will preach on "The Most Popular Sin in the World." It is the purpose of these churches to make these meetings brief and practically helpful. The singing is spirited and the atmosphere most informal. Chairs are provided for all. The public is cordially invited to attend these meetings during the summer months.

**VILLAGE LEARNS VALUE OF FIRE EXTINGUISHER.**  
In a recent utterance State Fire Marshal Bennett calls attention to the value of chemical fire extinguishers and advises that villages follow the example of the town of Aledo, which bought 400 extinguishers and distributed them among the business houses and homes. Within three days after the extinguishers had been placed there were three fires, every one of which were controlled by use of the extinguishers in the immediate neighborhood, and the damages amounted to very little.

## WINCHENDON'S 150TH ANNIVERSARY.

Winchendon, Mass., June 13.—The town of Winchendon, once known as the Plantation of Ipswich, Canada, is to observe the 150th anniversary of its incorporation with a three days' celebration beginning tomorrow. The exercises will be opened with semi-historical services in the churches. Monday and Tuesday will be given over to historical addresses, parades and pageants, band concerts, a firemen's muster and a variety of athletic sports.

**SOME GOOD WHEAT.**  
John M. Sayre of the vicinity of Lyndville was in the city yesterday. He says he has a field of wheat ready to cut which will yield 30 bushels to the acre. It has a lot of chinch bugs in it, but he thinks he can head them off by the witch method. He had them on his farm thirty years ago and they tried to get from a wheat field into his corn, and by plowing a furrow and dragging it he saved his corn crop all right.

**SOME GOOD WELLS.**  
E. L. Clark of Sumner, Ill., was in the city yesterday on business. He was one of the men who spent so much time and money seeking for oil in the east part of the county. He says they dropped several thousand dollars here, but near Sullivan, Indiana, they have the rights of 160 acres and have several flowing wells.

## ROSES OF EVERY HUE BLOOM ON CHARMING SUMMER MILLINERY.

Roses are a favorite trimming for summer millinery. Those which garland this dainty chapeau of tagal straw are almost natural enough to deceive one into believing they had been just plucked from the bush. The hat is bound with ribbon, and a big bow of moire nestles at the back of the hat.

## SPRINGFIELD SORROWS

## FOR DEATH OF MR. COE

Commissioner's Life and Record Such as to Command Respect of All—Funeral Will Be Held Monday.

Brief mention was made Saturday of the death of George Coe, one of the commissioners of Springfield. Mr. Coe was a man of ability and of splendid character and the people of Springfield are unanimous in expressing great regret for his death. During his term as commissioner Mr. Coe has fought firmly for those things which he thought to be right. He has naturally aroused some opposition and there have been divisions of opinion in the council but since his death the mayor and all commissioners have publicly paid tribute to their belief in his ability and integrity. Mr. Coe was born in this county but has spent practically all of his life in Springfield. The following facts concerning his career are taken from the Springfield Register:

"Mr. Coe was born Aug. 24, 1865, at Waverly, and was the son of Mr. and Mrs. Lauren W. Coe Sr. When he was about one year old his parents moved to this city, where they have resided since that time. He gained his grammar school education in the old Edward's school, then known as the Fourth Ward school, located at the corner of Spring and Edwards streets, which was recently torn down. He entered the Springfield high school, but did not graduate.

"Like his brothers and most other boys of his age, his father said to a State Register reporter, George thought that he could not afford to continue his education in the high school. He thought that he should get started in life and begin to earn money, and so he only went there a short time."

"For a time Mr. Coe was employed by R. F. Herndon & company, then for William Brewer. He then was employed by William E. Harbush on North Sixth street in the commission business. Mr. Coe took over Mr. Harbush's business, and had been in that business since that time, a period of nineteen years. The wholesale commission business is located at the corner of Fourth and Monroe streets.

"March 18, 1899, he married Miss Rose Anson in this city. Seven children were born, all of whom survive. They are five daughters, Mrs. Helen Coe Otwell of Ottumwa, Ark., and the Misses Martha, Dorothy, Phoebe, Rose and Alice Coe, and three sons, Lyman, George and Edward Coe, all residing at home."

"Mr. Coe is also survived by his aged father, Lauren W. Coe Sr.; one sister, Miss May L. Coe, and four brothers, Louis J., Edward, Allen and Lauren W. Coe Jr., besides a number of nieces and nephews."

"He was the nephew of the late Miss Elizabeth Duncan of Pawnee, who lived to be 102 years of age. Mr. Coe was a member of the Congregational church, a Mason and a Woodman."

The funeral will be held Monday afternoon at 3:30 o'clock at the house, to be followed by another service at 4 o'clock at the First Congregational church.

## MOUNT LASSEN THROWS ASHES A DISTANCE OF SIXTEEN MILES

MINERAL, Cal., June 13.—Sulphur fumes and volcanic ash marked today the fifth and most violent eruption of Mount Lassen since first the snowed peak broke out on May 30. Ashes fell here today for the first time at a distance of sixteen miles from the crater.

Forest Ranger Abbey and a party of explorers, including a moving picture man, arrived here safe today. They witnessed both the eruption of last night and that of this morning from close range.

Little apprehension is felt for the safety of nearby residents. The only damage to date is the destruction of the forest service lookout station. Moving pictures were obtained of last night's eruption.

## STRAUSS' EMPORIUM.

## TAKEN SUDDENLY ILL.

W. H. Brainer of South East street is critically ill at his home with a clot of blood on the brain. He returned from Springfield on the 5:13 Wabash Saturday night and at 9 o'clock was taken suddenly ill. Dr. G. R. Bradley and Dr. Allen M. King were summoned and worked several hours with him and at 2 o'clock this morning he was still unconscious.

EX-CONVICT KILLS DEPUTY. Sheridan, Wyo., June 13.—Deputy Sheriff William Veach was shot and instantly killed today by Earl Force, an ex-convict whom he was attempting to arrest on a horse stealing charge.

Deputy Sheriff Rue of Basin, Wyo., who was with Veach, was shot through the leg by Force, and he in turn shot the desperado three times, probably fatally injuring him.

## SOCIAL EVENTS.

The May and June birthday social of the W. R. C. will be held at the home of Mrs. J. W. Bowen, 403 Lincoln avenue, at 3 o'clock Monday afternoon. The hostesses will be Mrs. Rees, Mrs. Wells and Mrs. Bowen.

Mr. and Mrs. Edward M. Tindall, who reside southeast of Arnold entertained recently for Mr. and Mrs. Clifton Z. Arnold of Holdenville, Okla., Mrs. Arnold being a brother of Mrs. Tindall. The guest list included school-mates and near relatives and the splendid dinner was served on the beautiful lawn, which was especially decorated for the occasion. The house was also prettily decorated. Miss Hazel Strawn presided at the punch bowl.

After the repeat part of the time was spent in talking over old school days and listening to music on the Victrola and the hours proved most delightful indeed.

Among the guests present were: Mr. and Mrs. James Holmes, Mr. and Mrs. James Dolyns, Mr. and Mrs. J. W. Arnold, Mr. and Mrs. George Holley, Miss Eleanor Moore, Mr. and Mrs. James Strawn, Shirley, Hazel and Clifford Strawn, Mr. and Mrs. W. T. Scott, Mrs. A. D. Arnold, Miss Thelma and Mrs. Elizabeth Arnold.

The members of the United Commercial Travelers entertained last night in the L. O. O. F. hall on East State street, in honor of the ladies. Dancing was enjoyed and a good time generally held. During the time light refreshments were served. The committee in charge consisted of G. T. McKee, chairman; J. N. Conover, Leroy Craig, Leary Crouse and G. W. Gard.

Alleen Scott entertained a number of friends at her home, 826 Ashland avenue in honor of her 8th birthday. The house was beautifully decorated in pink and green. Games and music were a feature of the afternoon, Hazel Yeck furnishing part of the music. A bean contest was won by Helen Franz and Hazel Yeck. Later in the evening delicious refreshments were served, the cutting of the birthday cake caused a great deal of amusement. Eunice Hairle received the ring, Gladys Scott the dime and Margaret Baptist the thimble.

Among those present were: Helen Franz, Hazel Fortado, Hazel Yeck, Gladys Hairle, Vivian Vieira, Marjorie McNamara, Lois Douglas, Grace Holsher, Loretto Yeck, Catherine Stevenson, Lela Vieira, Mary Fortado, Marie Roberts, Irene Keener, May Roberts, Gladys Scott, Louise Robinson, Eunice Hairle, Alleen Scott, Josephine Goodwell, Alleen Fernandes, Dorris Robinson, Edith Penny, Bernice Vieira, Martha Schaub, Margaret Baptist. Those who assisted in entertaining the children were, Mrs. William Schneider and Mrs. Allen Franz.

A very delightful party was given Friday for Ella Eugenia Woodman at the home of Mr. and Mrs. Oscar Stice, north of Alexander, where she has been a guest for nearly two weeks. The event was in honor of her eleventh birthday and proved to be one of very special pleasure. The company included in addition to a number from the neighborhood, Mr. and Mrs. U. G. Woodman, Miss Isabel Woodman, and Miss Read from Sulphur, Oklahoma.

## SUCCESSFUL REBEKAH MEETING AT BROWNING

Delegates Return From Attending  
Sessions of the Seventeenth Dis-  
trict—Thirteen Past Noble Grands  
Receive Degree.

Mrs. Sadee Bayha and Mrs. Etta Siegfried returned Saturday from Browning, after attending the first annual Rebekah assembly of district No. 17. They report a large crowd and a splendid meeting. The 17th district is composed of five counties, which take in some of the best lodges in the state.

In addition to the regular routine of business, Grace E. Henry, president of the state assembly, was present and conducted a school of instruction and conferred the degree on thirteen Past Noble Grands, assisted by Mae Crowell, chief examiner and instructor. At 8 p. m. the Rebekah degree was conferred by Browning lodge No. 157 on a large class of candidates.

Mrs. Bayha served as treasurer for the past year and Mrs. Siegfried was elected vice president for the ensuing year.

Havana was selected as the next meeting place.

## REBELS PUSH MEXICAN CAMPAIGN WITH MEDIATION HANGING FIRE

Villa Leaves Torreon to Aid in Attack on Zacatecas — Gonzales Rushes Preparations to Assault San Luis Potosi.

El Paso, Tex., June 13.—The campaign in northern Mexico was pushed today by the constitutionalists at various points with mediation hanging fire and the question of an armistice unsettled. General Villa left Torreon today to assist in the attack on Zacatecas, which already has been begun by General Natera's force. Revolutionary troops under General Obregon continued efforts to take Mazatlan on the west coast. General Gonzales, eastern divisional commander, was reported here as rushing preparations to assault San Luis Potosi.

The capture of these three cities would place the constitutionalists in control of virtually all territory north of a line running between Tampico on the east coast and Mazatlan on the western seaboard or about one-half of the entire territory of the republic.

Americans and Englishmen interested in properties of the Parral district were preparing today to return to Mexico and begin work. Their return was occasioned by a reduction in what had been considered a prohibitive export tax on metals as imposed by the constitutionalist government.

## EIGHTY TAKE ADVANTAGE OF CHICAGO HOME-COMING EXCURSION

Company Arrives on 3:55 Chicago & Alton Saturday Afternoon For Three Day Stay—Alight From Train in Dashing Rain.

Weather conditions were not wholly auspicious Saturday afternoon, for when the 3:55 C. & A. train arrived from Chicago with eighty homecoming excursionists, a dashing rain was beating down and there ensued at once a mad scramble for shelter. There were a number of former Jacksonville residents in the company as well as many native Chicagoans who came down for a short visit with friends or relatives. The excursionists may not return later than Tuesday evening.

Among those who took advantage of the excursion, and the people they will visit are:

Dr. T. S. Green—Scott and Edward Green.

Miss Jessie Chuse, Mrs. Fannie Ryan, Mrs. Katherine Ross, Sharon and McKinley Ross—Mrs. Rebecca W. Anders, East Court street.

Mr. and Mrs. C. A. Wilson—Mr. and Mrs. George Wilson, Sandusky street.

Mrs. A. W. Goodrick—Harry A. Goodrick, her son, and other relatives.

Mrs. Bertha L. Wright Kauffman—Mrs. W. H. Wright, South Main street.

Mr. and Mrs. N. J. Schuur—Mr. and Mrs. N. Schurz, east of the city. Peter Alexander—J. W. Bryson, Pine street.

Mrs. John Steinmetz—Mrs. Chas. Reinhardt, North Fayette street. Mrs. John Ryan—Mrs. Alice Merigan.

Miss Loretta Finnigan—Mrs. Margaret Loneragan, South Main.

Paul T. Calhoun—Mr. and Mrs. T. P. Calhoun, Pine street, his parents.

Mrs. W. T. Jackson—Mr. and Mrs. S. E. Sargent of East Michigan avenue.

Mrs. Lee A. Smith—Mr. and Mrs. James Smith.

Among the remaining excursionists were Francis Kennedy, Mrs. Walter DeOrela, Mrs. Mary E. Kennedy, Frank O. Anderson, Mr. and Mrs. L. J. Lippert and daughter Mildred, F. Olsen, Harry C. Lane, A. Frank.

Mr. and Mrs. Frank Davison who took their wedding trip to Chicago were among the excursionists.

## MRS. MILLER WEIR HOME FROM GREAT GATHERING OF WOMEN

General Federation Sessions Prove of Vast Interest and Importance—Delegates Represent a Million Women.

Mrs. Miller Weir has returned from attending four days sessions of the General Federation of Women's clubs in Chicago. Like all other women who have been fortunate enough to attend any federation sessions she is very enthusiastic about the great gathering.

Asked about the convention last night Mrs. Weir said "I really could not give you a comprehensive story of the federation but you can well imagine the enthusiasm which comes to one in being part of a gathering of 2,094 earnest women, come together from points near and far. Eight foreign clubs are represented and the club memberships show that the delegates now in Chicago represent at least 1,000,000 women. I think that this very fact will serve to impress anyone with the importance of the convention."

"The address given by Mrs. Pennybacker has been called the greatest ever delivered by a woman and it certainly was deserving of the very highest commendation and praise for she thrilled and inspired the great audience. Mrs. Pennybacker maintained that club work is true religion and suggested as a watchword for the organization 'club activity, a religion for human uplift.'"

"The newspapers devoted a great deal of deserved space to the views voiced by Mrs. Robert J. Burdette on women's dress in which she severely arraigned some of the present day styles. 'As a woman dresses so is she,' declared Mrs. Burdette. Mrs. Blankenburg also took part in the dress discussion and protested against any skirt less than two yards wide, 'roomy enough to walk in,' to the polls.

"Three sessions a day of the general federation are being held in the Auditorium and these programs together with committee meetings, luncheons, etc., are keeping the women very, very busy. The Illinois headquarters are on the Mazzanine floor at the LaSalle hotel and the state is represented by a notable company of delegates. The program is such and the subjects considered so important that the gathering will certainly be recorded in history as one of the greatest and most far reaching in results of any convention of women ever held."
